FORWARD LOOKING STATEMENTS AND RISK FACTORS:

This Supplemental Information and other materials we have filed or may file with the Securities and Exchange Commission, as well as information included in oral statements made, or to be made, by our senior management contain certain “forward-looking” statements as that term is defined by the Private Securities Litigation Reform Act of 1995. All statements regarding our expected future financial position, results of operations, cash flows, funds from operations, continued performance improvements, ability to service and refinance our debt obligations, ability to finance growth opportunities, and similar statements including, without limitations, those containing words such as “may,” “will,” “believes,” “anticipates,” “expects,” “intends,” “estimates,” “plans,” and other similar expressions are forward-looking statements. Forward-looking statements involve known and unknown risks and uncertainties that may cause our actual results in future periods to differ materially from those projected or contemplated in the forward-looking. Such risks and uncertainties include, among other things, the impact of COVID-19 on our tenants and the risks which are described under the heading “Risk Factors” in Item 1A in our Form 10-K for the year ended December 31, 2019. In this Supplemental Information, we refer to non-GAAP financial measures. These non-GAAP measures are not prepared in accordance with generally accepted accounting principles. A reconciliation of the non-GAAP financial measures to the most directly comparable GAAP measures is included in this presentation. Throughout this presentation, certain abbreviations and acronyms are used to simplify the format. A list of definitions is provided at the end of this presentation to clarify the meaning of any reference that may be ambiguous. Unless otherwise noted, all amounts are unaudited and are as of or for the quarter ended June 30, 2020.

WE INVEST IN RELATIONSHIPS

NATIONAL HEALTH INVESTORS, INC. (NYSE: NHI), is a real estate investment trust specializing in sale-leaseback, joint-venture, mortgage and mezzanine financing of need-driven and discretionary senior housing and medical investments. NHI's portfolio consists of independent, assisted and memory care communities, entrance-fee retirement communities, skilled nursing facilities, medical office buildings and specialty hospitals.

GLOSSARY

ANNUALIZED REVENUES

The term Annualized Revenue refers to the amount of revenue that our portfolio would generate if all leases and mortgages were in effect for the twelve-month calendar year, regardless of the commencement date, maturity date, or renewals. Therefore, annualized revenue is used for financial analysis purposes, and is not indicative of actual or expected results.

ADJUSTED EBITDA & EBITDARM

We consider Adjusted EBITDA to be an important supplemental measure because it provides information which we use to evaluate our performance and serves as an indication of our ability to service debt. We define Adjusted EBITDA as consolidated earnings before interest, taxes, depreciation and amortization, including amounts in discontinued operations, excluding real estate asset impairments and gains on dispositions and certain items which, due to their infrequent or unpredictable nature, may create some difficulty in comparing Adjusted EBITDA for the current period to similar prior periods, and may include, but are not limited to, impairment of non-real estate assets, gains and losses attributable to the acquisition and disposition of assets and liabilities, and recoveries of previous write-downs. Since others may not use our definition of Adjusted EBITDA, caution should be exercised when comparing our Adjusted EBITDA to that of other companies.

EBITDARM is earnings before interest, taxes, depreciation, amortization, rent and management fees.

CAGR

The acronym CAGR refers to the Compound Annual Growth Rate. The compound annual growth rate represents the year-over-year growth rate over a specified time period.

NORMALIZED FFO, AFFO & FAD

These operating performance measures may not be comparable to similarly titled measures used by other REITs. Consequently, our FFO, normalized FFO, normalized AFFO & normalized FAD may not provide a meaningful measure of our performance as compared to that of other REITs. Since other REITs may not use our definition of these operating performance measures, caution should be exercised when comparing our Company's FFO, normalized FFO, normalized AFFO & normalized FAD to that of other REITs. These financial performance measures do not represent cash generated from operating activities in accordance with generally accepted accounting principles ("GAAP") (these measures do not include changes in operating assets and liabilities) and therefore should not be considered an alternative to net earnings as an indication of operating performance, or to net cash flow from operating activities as determined by GAAP as a measure of liquidity, and are not necessarily indicative of cash available to fund cash needs.

FFO, as defined by the National Association of Real Estate Investment Trusts ("NAREIT") and applied by us, is net income (computed in accordance with GAAP), excluding gains (or losses) from sales of real estate property, plus real estate depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures, if any. The Company's computation of FFO may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or have a different interpretation of the current NAREIT definition from that of the Company; therefore, caution should be exercised when comparing our Company's FFO to that of other REITs. Diluted FFO assumes the exercise of stock options and other potentially dilutive securities. Normalized FFO excludes from FFO certain items which, due to their infrequent or unpredictable nature, may create some difficulty in comparing FFO for the current period to similar prior periods, and may include, but are not limited to, impairment of non-real estate assets, gains and losses attributable to the acquisition and disposition of assets and liabilities, and recoveries of previous write-downs.

We believe that FFO and normalized FFO are important supplemental measures of operating performance for a REIT. Because the historical cost accounting convention used for real estate assets requires depreciation (except on land), such accounting presentation implies that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen and fallen with market conditions, presentations of operating results for a REIT that uses historical cost accounting for depreciation could be less informative, and should be supplemented with a measure such as FFO. The term FFO was designed by the REIT industry to address this issue.

We believe that normalized AFFO is an important supplemental measure of operating performance for a REIT. GAAP requires a lessor to recognize contractual lease payments into income on a straight-line basis over the expected term of the lease.

This straight-line adjustment has the effect of reporting lease income that is significantly more or less than the contractual cash flows received pursuant to the terms of the lease agreement. GAAP also requires the original issue discount of our convertible senior notes and debt issuance costs to be amortized as a non-cash adjustment to earnings. Normalized AFFO is useful to our investors as it reflects the growth inherent in our contractual lease payments without the distortion caused by non-cash amortization.

We believe that normalized FAD is an important supplemental measure of operating performance for a REIT, also providing a useful indicator of the ability to distribute dividends to shareholders. Additionally, normalized FAD improves the understanding of our operating results among investors and makes comparisons with: (i) expected results, (ii) results of previous periods and (iii) results among REITs, more meaningful. Because FAD may function as a liquidity measure, we do not present FAD on a per-share basis.

FACILITY TYPES

SHO - Senior housing

EFC - Entrance Fee Community

SNF - Skilled nursing facility

HOSP - Hospital

MOB - Medical office building

FIXED CHARGES

The term Fixed Charges refers to interest expense and debt principal.

Peer Average

The peer average calculations provided by Wells Fargo Securities include the following diversified healthcare REITs:

Ventas, Inc. LTC Properties, Inc. Sabra Health Care REIT, Inc.
Welltower, Inc. Healthpeak Properties

STABILIZED LEASE

A newly acquired triple-net lease property is generally considered stabilized upon lease-up (typically when senior-care residents occupy at least 85% of the total number of certified units over at least a 12 month period) Newly completed developments, including redevelopments, are considered stabilized upon lease-up, as described above.

TOTAL RETURN

The term Total Return refers to the total return an investor would have realized on an annual basis over a certain period assuming that all dividends are reinvested on the dividend payment date.

WACY

The acronym WACY refers to Weighted Average Cash Yield, which is the anticipated rate of return upon initial investment excluding the impact of any discounts received or premiums paid
